Recent Non-Technical Experience

Citizens for Washington Hospital

July to November 2022. I circulated petitions and produced marketing materials (posters, web material) to gain funding for the emergency room and trauma care center at Washington Hospital, a local Fremont county hospital. I got over 4,200 signatures, helping to qualify the measure for the ballot.

Farm and Community Asset Advisors

October 2021 to May 2022. I did cold calling to cannabis dealers setting up appointments for Neil Gavande, principal partner to sell 401(k) retirement plans. It was not successful and he abandoned the direct calling after 8 months. I succeeded in setting up many appointments, however.
